# 1. Planning

All of the Sprint goal, Personas and scenarios, Milestones... are in Choice P2 repo & projects.

The screenshot displays the ChoiceP2 repository interface, specifically the 'User Stories' section and the overall project backlog.

**User Stories:**

- Milestone 1: Secondary Menu and Listing Layouts**
  - Story 1.1: Add Secondary Hover Menu for New Categories**
    - User Story: As a student, I want a secondary hover menu on the homepage, so that I can quickly access the new listing categories.
    - Acceptance Criteria:
      - Hovering over the icon triggers the secondary menu
      - Hovering out hides the menu unless it's pinned
      - Pin icon toggles fixed state
      - Contains links to all new category listings
      - Menu is responsive and works on mobile devices
    - Story 1.2: Add Sorting to All Listing Pages
      - User Story: As a student, I want to sort listings by name or rating, so that I can view them in the order that suits me best.
      - Acceptance Criteria:
        - Sorting options: A-Z, Z-A, Rating High → Low, Rating Low → High
        - Default sorting can be alphabetical
        - Affects visible entries in list/grid views
        - Sorting preference persists within session
      - Story 1.3: Add Grid/List View Toggle for Listings
        - User Story: As a student, I want to toggle between list and grid views, so that I can choose the layout that's easier for me to read.
        - Acceptance Criteria:
          - Toggle buttons or icons switch between views
          - State persists on navigation within the category
          - Both layouts show title, type, location, and rating
          - Layouts are responsive and work on different screen sizes

# Feature Development - Boxuan Lin

Adding Category Filter for better user bookmark experience.

The screenshot displays a user interface for comparing universities. At the top, there's a navigation bar with tabs: Home, Bookmarks (which is currently selected), and Activity. Below this is a grid of categories:

Universities	Programs	Subjects	Accommodations	Destinations	Health
Fitness	Eateries	Clubs & Societies	Culture & Religion	Helpful Links	

Below the grid, two university profiles are shown side-by-side:

University: Australian Catholic University

University: Deakin University

Under each university profile is a dark red "Add to Compare" button.

# Feature Development - Boxuan Lin

Improve dark mode experience for the whole bookmark section:

The Australian National University

DEAKIN Deakin University

Compare (2)

# Feature Development - Elva

Adding a secondary menu bar for new categories.

The screenshot shows the Elva website's homepage. At the top, there is a dark navigation bar with a user icon, the text "Universities", "Programs", "Subjects", a plus sign, "Search", a search icon, and a "Login" button. Below this, a secondary menu bar is visible with categories: "Destinations", "Accommodation", "Health", "Fitness", "Eateries", "Clubs & Societies", and "Culture & Religion". The main content area features a section titled "Students Choice" with the subtitle "From students, for students. Discover universities, share experiences, make informed decisions". It includes links to "Check out universities", "Explore offered programs", and "Find your next subjects". Below this is a "Top Ranked" section showing five university cards: #1 THE UNIVERSITY OF SYDNEY (4.29 stars), #2 ACU (3.42 stars), #3 MONASH University (3.18 stars), #4 LA TROBE UNIVERSITY (3 stars), and #5 Australian National University (2.9 stars). The cards include small images of university buildings and logos.

The screenshot shows the Elva website's homepage with a secondary menu bar. The main menu on the left includes "Home", "Universities", "Programs", "Subjects", "Login", and a "Destinations" link with a plus sign. The secondary menu bar on the right lists categories: "Destinations", "Accommodation", "Health", "Fitness", "Eateries", "Clubs & Societies", and "Culture & Religion". Below the menu bar, there are two images: one of a person walking on a path and another of the Monash University building.

# Feature Development - Destination (JINQIAO)

Acceptance Criteria:

The screenshot shows the 'Destinations' section of a university website. The top navigation bar includes links for Universities, Programs, Subjects, a search bar, and a login button. Below the navigation is a secondary menu with links for Destinations, Accommodation, Health, Fitness, Eateries, Clubs & Societies, and Culture & Religion. The main content area is titled 'Destinations' with a location pin icon. It features a search bar with placeholder text 'Search for destination...' and a red 'Search' button. A 'Sort by' dropdown menu offers options: Alphabetical, Highest rating (which is selected), and Lowest rating. Below the search area is a grid of twelve destination cards, each with a small image and a location pin. The cards are arranged in two rows of six. The visible destinations are: Australia (kangaroo on beach), New Zealand (purple flowers), Melbourne (city skyline), Sydney (Opera House), Auckland (city skyline), Brisbane (city skyline), Victoria (coastal landscape), New South Wales (coastal road), Adelaide (city skyline), Dunedin (city skyline), Perth (city skyline), and Hobart (city skyline).

# Feature Development - Destination (JINQIAO)

Acceptance Criteria:

# Feature Development - Destination (JINQIAO)

Acceptance Criteria:

The screenshot shows a dark-themed user interface for a travel-related application. At the top, there is a navigation bar with icons for user profile, search, and login, followed by links for 'Universities', 'Programs', 'Subjects', 'Search', and 'Login'. Below the navigation bar, a horizontal menu bar includes 'Destinations', 'Accommodation', 'Health', 'Fitness', 'Eateries', 'Clubs & Societies', and 'Culture & Religion'. A back arrow icon is positioned to the right of the menu bar. The main content area features a large, bold title 'Destinations' with a left-pointing arrow icon. Below it, the word 'Sydney' is displayed in large, bold letters, accompanied by a bookmark icon. Underneath 'Sydney', there is a location pin icon followed by the text 'NSW Australia'. The bottom half of the screen is dominated by a large, high-quality photograph of the Sydney Opera House at night, illuminated against a dark sky.

# Feature Development - Destination (JINQIAO)

Agile artifacts creation:

The image shows a Jira board with four columns: Open, Backlog, Development, and Testing. Each column contains a list of tasks with their details, estimates, and sprint assignments.

- Open:** This item hasn't been started.
  - StudentsChoice #74: [P2] Add bookmark support for new listings (Medium, 3, S, Sprint 2)
  - StudentsChoice #96: [P2] Implement Request form for new listings (Medium, 3, S, Sprint 2)
  - StudentsChoice #81: [P2] Enable user to post for new listings (Medium, M, Sprint 2)
  - StudentsChoice #63: P2 develop Sprint 1
- Backlog:** This is prioritized and pending work.
  - StudentsChoice #77: [P2] Collect Data for new listing (Essential, 3, XS, Sprint 2)
  - StudentsChoice #79: [P2] Fix layout issue for review sorting (Medium, 1, XS, Sprint 2)
  - StudentsChoice #78: [P2] Fix filter for review rating (Sprint 2)
- Development:** This is actively being worked on.
  - [P2] Add Second Menu bar to Homepage (Essential, 5, S, Sprint 2)
  - StudentsChoice #84: [P2] Change list layout on the universities webpage. (Essential, 5, S, Sprint 2)
  - [P2] Add Entity for new listing in backend (Essential, 3, XS, Sprint 2)
  - StudentsChoice #73: [P2] Create Webpage for Other New Listing (Essential, 5, M, Sprint 2)
  - StudentsChoice #72: [P2] Create Webpage for Destination Listing (Essential, 5, M, Sprint 2)** (This task is highlighted with a red border and a red arrow points to it from the Open column).
  - StudentsChoice #75: [P2] Add Category Filter for Bookmarks in User Profile (Medium, 7, M, Sprint 2)
- Testing:** This is being tested or reviewed.
  - StudentsChoice #6: [P2] Tab for helpful links for all listings with option to bookmark (Sprint 1)

## Feedback:

 Devyani 昨天23:09

Thanks @Jinqiao . Please see the feedback below,

- You have mixed the landscape photos for Adelaide and Auckland. Please fix that.
- You need to adjust the Australia picture such that the kangaroos are in the middle of the frame and it looks good.
- The Cairns picture has text at the bottom. You need to place the picture such that the text is not visible.
- The location icon next to the destination name should have the same colour as the text of the destination name.
- Move the rating and the star to the bottom right corner of the landscape image
- You can elongate the text box for the Australian Capital Territory so that it fits in two lines and the one for Coffs Harbour so that it fits in one line
- Since most users on Students Choice would be university students, I prefer that the destinations are linked to official student related websites like Study Australia: <https://www.studyaustralia.gov.au/> , Study Canberra: <https://canberra.com.au/study> . Are you able to update the links accordingly?
- For Australian cities in the list layout, add the state name too. For example, Sydney NSW Australia, Brisbane QLD Australia, Melbourne VIC Australia
- Palmerston North and Lincoln are both in New Zealand. I have not included any destinations from the US yet.

# Feature Development - Dian

Change list layout on the universities webpage:

The screenshot displays a user interface for searching universities. At the top, there is a navigation bar with icons for a graduation cap, 'Universities', 'Programs', 'Subjects', a plus sign, a search bar containing the word 'Search', a magnifying glass icon, and a user profile icon.

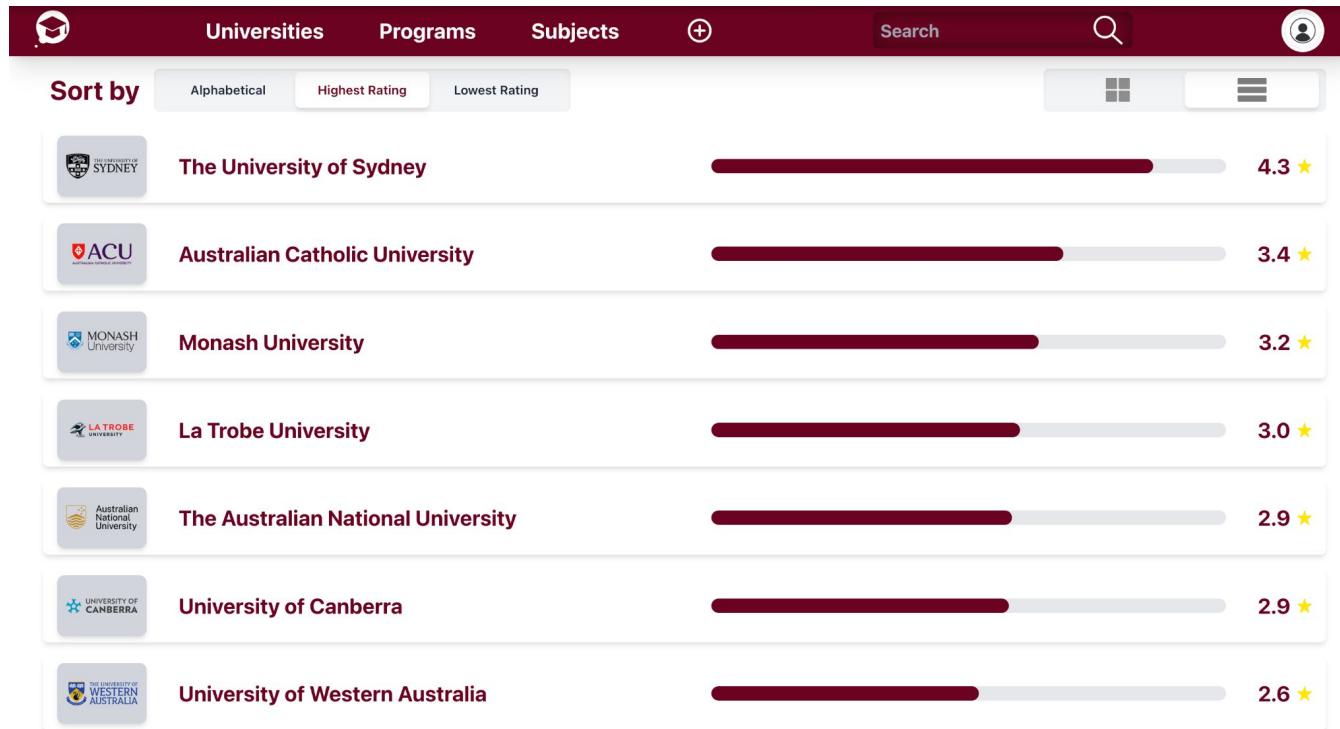

The main section is titled 'Universities' with a graduation cap icon. It contains two search input fields: 'Search for universities' and 'Search by location'. Below these are buttons for sorting: 'Alphabetical', 'Highest Rating', and 'Lowest Rating'. To the right of the sorting buttons are icons for a grid view and a list view.

The results list shows two entries:

- Australian Catholic University (ACU) with a 3.4 rating and 2 stars.
- Deakin University (DEAKIN UNIVERSITY) with a 2.0 rating and 2 stars.

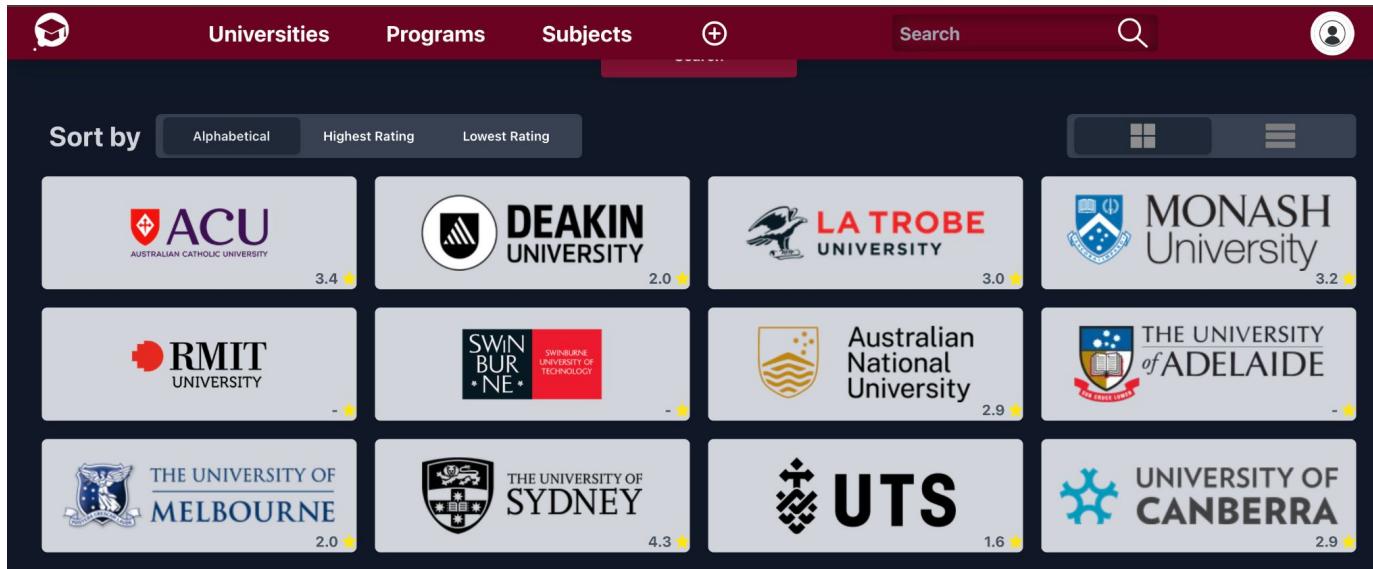

# Feature Development - Dian

Change list layout on the universities webpage:

## Feedback from client

Hi @Devyani, these screenshots are the webpage for health/fitness/eateries/culture and religion/ club and society

Good job @Han . Here is my feedback:

- You can slightly increase the spacing between 'Alphabetical', 'Highest rating' and 'Lowest rating' for aesthetic reasons.
- Why does the list grid button have a blue outline? You can make it Students Choice maroon for aesthetic appeal.
- In the dark mode, the background of the logo should have the same colour as the 'Health' and 'Culture & Religion' text as done by Daniel in Sprint 2 so that they are clearly visible.
- I feel the height of the cell is slightly longer than what is needed. You can shorten it such that more cells could be displayed on a single webpage.

@Han Here is a screenshot of the webpage that @Dian has developed for the universities webpage. I like the spacing that he did amongst 'Alphabetical', 'Highest rating' and 'Lowest rating'. You can ask him for help. Also look at the background colour of the logos. (edited)

# Feature Development - Huizhe Ruan

Fixed the bug where the review filtering could not be filtered after merging with team1 after sprint1 ended

## The review page of the website

# Feature Development - Huizhe Ruan

## Feedback from client

### Feedback for [Huizhe Ruan]:

- **Bug Fix:** The filter bug fix for reviews is working perfectly. The ability to filter by star ratings and combine with sorting works exactly as intended.
- **Data Collection:** Excellent work on collecting information about facilities around universities! The comprehensive details including names, descriptions, types, and locations provide valuable information for students.
- **Quantity Guideline:** As requested, aim to include 5 facilities of each type for every university. This will ensure a consistent experience across all university pages.
- **Google Maps Integration:** Please add Google Maps information for each facility. This should include:
  - Displaying the facility's location on a map in the details page
  - Including Google Maps images where available
  - Potentially adding a directions feature for students to navigate from campus

### **3. Review and Reflection - Sprint Review Summary**

Our team successfully completed all six planned features including bookmark category filtering, secondary hover menus, new destination listing pages with visuals, Strapi integration for destination data, and enhanced review filtering. Client feedback was positive, particularly regarding UI/UX improvements. The team faced challenges with cross-category comparison logic, dark mode consistency, and Strapi integration, but overcame them. Adding bookmark support for all the new pages and adding new listings are incomplete tasks which will be added to the next sprint.

### 3. Review and Reflection - Sprint Retrospective

- Doc link: [Sprint Retrospective](#)
- Coding development went smoothly; active contributions.
- Client communication improved; quicker issue handling.
- Documentation lacked ownership and structure.
- Sprint planning delayed by overloaded features.
- Drop ad-hoc meetings and unassigned documentation.
- Keep strong internal communication and client updates.
- Improve documentation process and capacity planning.
- Action: Set meetings, assign documentation, adjust sprint load.

Communication with stakeholder:

Devyani 2025/4/14 14:08

Dear everyone, I have uploaded some layouts for you in our the shared folder in the folder named Sprint 2. I wil be adding some more layouts in the near future. Sprint 2 is going to be intense with many different designs (with many common elements and some customisations to present different kinds of information). You guys worked very well together in Sprint 1. If you guys divide your tasks efficiently and coordinate with each other, you should be able to do well in Sprint 2 to

- Are you able to access this folder? [https://drive.google.com/drive/u/0/folders/1cir\\_6cwSUgdYdwXB8tIntmZN\\_rW4NBvE](https://drive.google.com/drive/u/0/folders/1cir_6cwSUgdYdwXB8tIntmZN_rW4NBvE)
- Prince, the offshore developer is developing the location based filter. You need to embed it in the webpages that you design. You will have to liaise with him.
- When you use icons and graphics, make sure that they are consistent with the ones which are already on the website and the ones that your team members us
- I have a Canva teams subscription that I share with my marketing interns. I have space for one member of your team to use it such they download trademark icons for the entire team. Do you want to use it? If yes, provide me with an email address to send an invitation to.
- Do you have any questions about the layouts that I have uploaded so far?

@Boxuan Lin @Dian @Elva @Huizhe Ruan(Daniel) @Han @Jinqiao

2025年4月15日

Devyani 2025/4/15 11:47

Dear **@everyone**, my husband is unwell and I have to take him to a GP clinic at 3:50pm so I would only hang around till 3pm.

# 4. Stakeholder Engagement - Evidence of feedback

Communication with stakeholder:

The screenshot shows a Slack message thread. Devyani asks if work from Sprint 1 of S1 2025 has been merged. Boxuan Lin responds that they're not sure but mention a merge request from last month. A screenshot of a GitHub pull request titled "P2 develop Sprint 1" is shown, indicating it was opened last month by Boxuan-Matty-Lin.

**Devyani** 2025/4/25 17:28  
Do you know when your work from Sprint 1 from S1 2025 be merged on the developers site?

**Boxuan Lin** 2025/4/25 17:31  
Not sure, I've made a merge request last month

P2 develop Sprint 1 [coding](#)  
#65 opened last month by Boxuan-Matty-Lin

But I've merged team 1's work into P2 develop, so our current development will combine with what they had made last sprint, there should be no conflict for next sprint's work merging. (已编辑)

# 4. Stakeholder Engagement - Evidence of feedback

Communication with stakeholder:

@Boxuan Lin Hi @Devyani , I wonder do you wish the category filter looks like a switch bar (like the "home,bookmark,activity" one above) or some individual buttons?

Devyani 14:27  
@Boxuan Lin Individual buttons as there are too many options.

1

@Han Hi @Devyani , these screenshots are the webpage for health/fitness/eateries/culture and religion/ club and society

Devyani 14:43  
Good job @Han . Here is my feedback:

- You can slightly increase the spacing between 'Alphabetical', 'Highest rating' and 'Lowest rating' for aesthetic reasons.
- Why does the list grid button have a blue outline? You can make it Students Choice maroon for aesthetic appeal.
- In the dark mode, the background of the logo should have the same colour as the 'Health' and 'Culture & Religion' text as done by Daniel in Sprint 2 so that they are clearly visible.
- I feel the height of the cell is slightly longer than what is needed. You can shorten it such that more cells could be displayed on a single webpage.

Hi @Devyani , I wonder do you wish the category filter looks like a switch bar (like the "home,bookmark,activity" one above) or some individual buttons?

**Hey, AutoMan**  
The Australian National University

Home Bookmarks Activity

Universities Programs Subjects Accommodations Destinations Health

Fitness Eateries Clubs & Societies Culture & Religion Helpful links

The Arts: Visual Arts and Media in the Early Years Subject: Evolution of Disney

# 4. Stakeholder Engagement - Evidence of feedback

Communication with stakeholder:

The screenshot shows a mobile application interface with a dark theme. At the top, there is a navigation bar with icons for Programs, Subjects, and Search. Below the navigation bar, there is a header section titled "Students Choice" with a sub-section "From students, for students". It features a "Discover universities, share experiences, make informed decisions" message and a "Find your university" search bar. A "Top Ranked" section displays logos for The University of Sydney, Monash University, and La Trobe University, each with a star rating (4.29, 4.0, and 4.5 respectively).

**Elva 15:17**

@Devyani I've changed the icon to the plus circle one, and implement the mobile view.

**Subjects**

- Login

- Accommodation
- Health
- Fitness
- Eateries
- Clubs & Societies
- Culture & Religion

**Jinqiao 16:55**

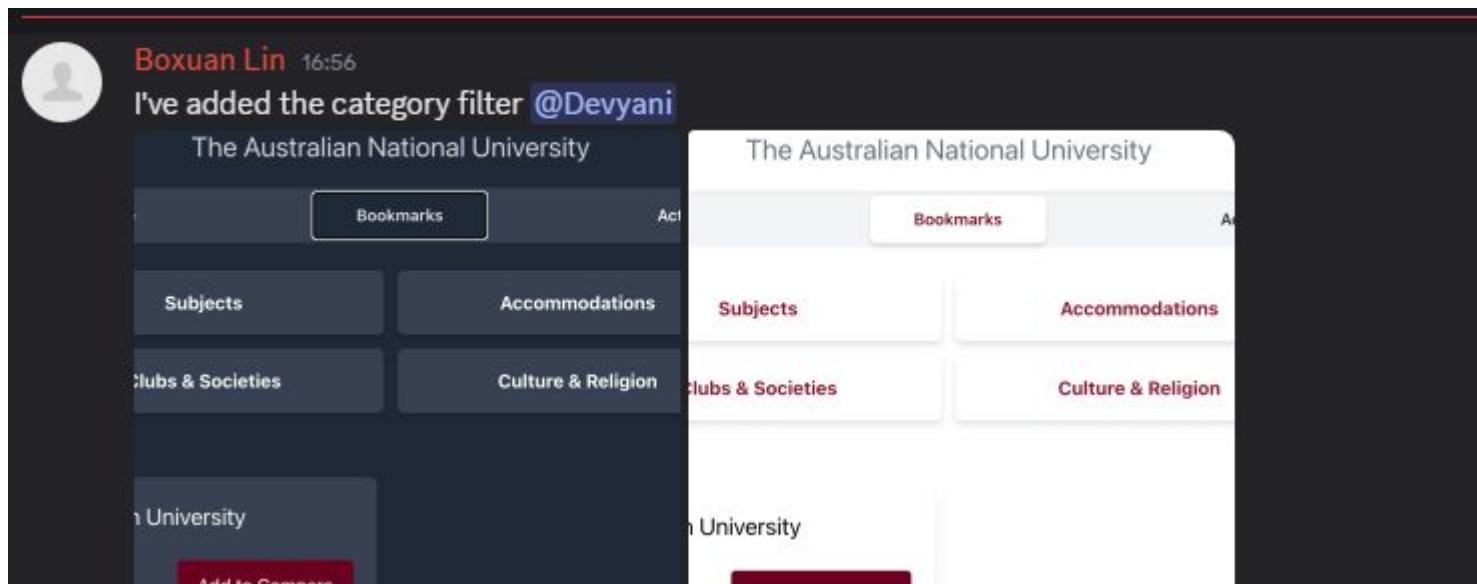

@Devyani I added pages of destinations, also uploaded destination data including images and webpage to strapi

A table titled "Page" is shown at the bottom, listing three items:

ID	DESTINATIONNAME	BLOG	DECODE	DATE	STATUS
1	Destinations	-	-	2023-08-01	Normal
2	-	-	-	2023-08-01	Normal
12	-	-	-	2023-08-01	Normal
